

## **Format Agree/Disagree**

One of the most conspicuous trends of today's world is a colossal upsurge in the number of people believing that **TOPIC**. There is a widespread worry that this will only lead to a myriad of concerns in one's life. However, I do not entirely accept this and I will explain why in this essay.

There are number of arguments in favor of my stance. The most preponderant one is that **TOPIC** can not only contribute to **ADVANTAGE/POSITIVE**, but also lead to numerous other benefits in various fields. Thanks to the wide range of advantages it offers, not only can one benefit more when it comes to being effective, but they can also enhance their productivity and quality of their lives, with much ease, efficacy, and convenience. Needless to say, all these merits stand one in good stead, as far as augmenting their chances of prosperity and excellence is concerned.

Another pivotal aspect of the aforementioned proposition is that it is only likely to help one thrive and excel in varied areas. Besides, only when one follows such a system, can they broaden their horizons, thus learning such essential attributes as responsibility, dedication, and perseverance. Hence, it is apparent why many are in favor of the **TOPIC**.

In the view of arguments outlined above, one can conclude that the benefits of the **TOPIC** are indeed too great to ignore.

## **Problem solution**

One of the most conspicuous trends of today's world is a colossal upsurge in **TOPIC** all over the world. There is a wide range of factors that accounts for why this is happening. In my opinion, this situation can be remedied provided that some effective measures are taken.

There are myriad of consequences associated with reasons accountable for this soaring concern. Unlike everyday problems, which can be dealt with easily, **TOPIC** which is extremely perilous can lead to an array of issues such as **ISSUE1** and **ISSUE2**. Thanks to the aforementioned predicaments, it is not only people but also society that can suffer immensely.

Steps to deal with problem are many but the most effective ones are in fact not remote or complicated but accessible and practicable. The primary one stems from the fact that by ensuring the implementation of set rules and policies government authorities can help a nation thrive. Besides, international organizations and local authorities should take the necessary initiatives cumulatively. Only when convergent efforts from all the sectors are ensured, can we expect to see some considerable progress in curbing the issue.

To conclude, dealing with **TOPIC** is one of the most prevalent problem that faces almost all parts of the world today. Nevertheless, the concrete steps as discussed above can effectively strengthen the fight against and alleviates this growing concern. Its potential impact is indeed too dire to ignore.

### **Both sided**

One of the most conspicuous trends of today's world is a colossal upsurge in the number of people believing that **TOPIC**. There is a widespread worry that this will only lead to a myriad of concerns in one's life. However, I do not entirely accept this and I will explain why in this essay.

Needless to say, all these merits stand one in good stead, as far as augmenting their chances of prosperity and excellence is concerned.

There are, however, some pitfalls that can easily overwhelm the potential benefits of **TOPIC**. The primary one stems from the fact that by observing the aforementioned trend people have not only realized its gravity, but also gauged the magnitude of its repercussions when it comes to ever changing lifestyle. Besides, its impact on **TOPIC** are far reaching indeed. Hence, it is apparent why many are against **TOPIC**.

In view of the arguments outlined above, one can conclude that despite some drawbacks the benefits of **TOPIC** are indeed too great to ignore.
